

Responsible use

EdgeHub is an information and tracking tool, not a sportsbook. If wagering stops being fun, or starts feeling difficult to control, these resources are here regardless of your plan or account status.

- National Council on Problem Gambling helpline: 1-800-522-4700, available 24/7.
- You can set your own alert quiet hours, stake caps, and bankroll limits from Account at any time.
- You can pause your account without deleting your tracker history, or delete your account entirely.
- EdgeHub notification copy never uses urgency, loss-chasing language, or streak framing.

Nothing on EdgeHub is a "lock," a guaranteed outcome, or advice to wager. Every probability shown is an estimate with disclosed uncertainty, and the decision to act on it - or not - is always yours.

v1.0 - published 2026-09-16

EdgeHub provides market-intelligence information and tracking tools. It does not accept, route, or execute wagers, does not custody funds, and does not represent itself as a sportsbook or exchange. Nothing here is a guarantee of any outcome.
